

### **1. Tablets for Mobile UPCS Inspections**

- The agency now has the capacity to perform inspections via tablets for Conventional Housing.

### **2. Online Trainings Database**

- The agency is setting up a database to track all online HTVN trainings.

### **3. Intranet Site 2.0**

- A new version of the intranet site is being developed for implementation this month. The new site will feature a more familiar browsing layout as it will mimic the current HACS Website.

### **4. Yardi Voyager 7s Upgrade**

- The agency is awaiting a revised copy of the agreement for Yardi Voyager 7s. The new agreement is to include additional counts for licensing at no extra cost to the agency. The agreement will be submitted for final review this month.
