

- **Yardi Voyager**

- Trainings for the iAffordable Module

- Staff trainings for the iAffordable Module took place the week of October 14th.
 - As a result new best practices and procedures have and will be implemented to better utilize the software's Rural Development & Market Rate property management features.

- **Intranet Site**

- The Agency Intranet site has been migrated to a server that allows access from any device that has internet connectivity.
 - The new site allows for more functionality than the previous ADP site did.

- **Agency E-Commerce**

- A new Agency store has been configured and is fully operational
 - It is available for access via the Agency Website.

- **Windows 10 Upgrade Path**

- Windows 7 will no longer be supported after January 2020
 - Agency workstations are being upgraded accordingly to maintain operating system security and support

- **Agency Copiers**

- Multiple copiers are being deployed in the months of October/November to accommodate for growth, maintain machines under manufacturer warranty, and to comply with a regular copier life-cycle.
