

- **Yardi 7.09 Test Environment**

- Yardi has released an update to the .08 environment which includes several important bug fixes. The Agency's test environment will be updated to avoid several version upgrades in a calendar year.
- User testing will be scheduled once the environment is updated.

- **Online Form Submissions**

- Agency staff have worked to place several forms/applications online that were not previously available.

- **Comprehensive Kiosk Solution**

- The Agency is exploring kiosk station options that would include several services at the touch of a screen and scanning/document submission for clients.

- **Kansas House**

- Permanent Security Cameras are scheduled to be installed the week of May 18th and will include a DVR and access for the Modesto Police Department to live monitor
