

RECRUITMENT

The Authority is diligently continuing to recruit, test and hold interviews as it strives toward filling vacant positions for all departments within the agency. Testing has been completed for positions of Maintenance Worker I/II, Eligibility Specialist I/II, Office Assistant, and Accountant. Oral Board Interviews are being scheduled for those candidates who have qualified to proceed to the next round in the recruitment process.

The Authority had a candidate proceed through the recruitment process for the Purchasing Specialist position successfully and was offered an Offer of Employment; however, the economics was not acceptable for the candidate and the candidate respectfully declined the Authority's offer.

With the near year, Human Resources is continuing to strive toward having many of our vacant positions filled within the next thirty (30) days.

COMPENSATION REVIEW

Human Resources has been directed to perform a compensation review of the Senior Management Staff, as well as the represented staff. As the compensation review is completed, Human Resources will return to the Commission to report its findings.

SUCCESSION PLAN

Human Resources has also been directed to begin preparing a Succession Plan for the agency. Human Resources will provide periodic updates to the Commission throughout the development of this Plan.
