

- **Firewall Upgrade**

- The Agency has upgraded the Firewall that manages incoming remote connections in order to continue operating at the highest level of security and remote functionality for users.

- **Yardi Upgrades**

- The Agency has moved forward with Yardi Procure to Pay and Affordable Module licensing.
 - Procure to Pay allows for online collaboration with the Agency's vendors via a Vendor portal, real-time invoice submittal via the portal and/or email, as well as automated workflow and invoice/PO assignment.

- **Maintenance Tablet Training**

- A new training will take place in the month of May for all Maintenance staff who are leveraging tablets for real-time Work Order processing. This training is to serve as a refresher and also facilitate Q&A as well as advanced user functions.
